Summary

Digital marketer turned professional full-stack web developer, I make mobile-responsive web applications using modern tech stacks and industry-best practices. My life-long love of learning and collaboration, together with my attention to detail and creative thinking makes me a great fit in a fast-paced web development team.

Skills

Front End: HTML5, CSS3, JavaScript (ES6), jQuery, React (+ React Router)

Back End: Node.js, Express.js, PostgreSQL, knex.js, JSON Web Tokens, Socket.io

Dev Tools: Git, GitHub, Chrome Dev Tools, Heroku, Jest, Enzyme, Chai, Mocha, Supertest

Additional: Test-driven development, data structures, algorithms, RESTful API architecture, Shopify, ClickFunnels, Mailchimp

Recent Projects

Saneful 2020 App | [GitHub \(front end\)](#) | [GitHub \(back end\)](#) | [Live site](#)

- Created a real-time strategy RPG (role-playing game) in React.js, Express.js, PostgreSQL, etc., in collaboration with Nick Thorpe, Chrissy Harmon, Matthew Rougely, and Michael Oh
- Involved the construction of a primitive (yet robust) video game engine from scratch

Job-Tracker App | [GitHub \(front end\)](#) | [GitHub \(back end\)](#) | [Live site](#)

- Built a full-stack web app designed to help new web developers organize job listings during their job search
- RESTful API on the back end, including user registration and authentication, and security best-practices
- Tech: HTML5, CSS3, React, Node.js, Express.js, PostgreSQL, knex.js, JWT, Vercel, Heroku

Bookmarks App | [GitHub](#) | [Live site](#)

- Built a single-page stateful web app with clean, minimalist UI/UX, designed for bookmarking favorite websites
- Tech: HTML5, CSS3, jQuery

Nick & Minh's Amazing Quiz App | [GitHub](#) | [Live site](#)

- First front-end web app made in collaboration with Nick Thorpe to test user's knowledge of Marvel trivia
- Single page stateful app with multiple views built with HTML5, CSS3, and jQuery

Experience

THINKFUL Engineering Immersion Program

May 2020 – Oct 2020

Full-stack Web Developer in Training

- Completed 800+ hours of intensive learning and hands-on practice and pair programming, with iterative feedback from a team of senior developers, educators, and one-on-one mentors
- Learned industry-best practices in real-world software development with a focus on HTML5, CSS3, JavaScript, jQuery, Node.js, React, PostgreSQL, and algorithms & data structures
- Created and deployed several full-stack mobile-first web applications

Education

TUFTS UNIVERSITY

M.S., Mathematics

focus on Probability Theory, Real Analysis, Differential Geometry, and Dynamical Systems

Medford, MA

Graduated 2013

OHIO STATE UNIVERSITY

B.S., Mathematics

Columbus, OH

Graduated 2010
